## **24 HOUR SEWER LINING NOTICE**

**RE: Cured-In-Place Pipe Lining  
Contract No. 75  
South Region – Erie County Sewer District No. 2  
Central Region – Erie County Sewer District No. 3 & 6  
Northern Region – Erie County Sewer District No. 1, 4 & 5**

Dear Resident/Occupant:

As a part of your County's continuing efforts to improve the operation of its sewer system, the sanitary sewer on your street, or through your property, is scheduled to be re-lined. The County has chosen a cured in place pipe (CIPP), a method of construction that is quicker, less expensive and less disruptive than excavating on your property or street.

This letter will serve as your **24 HOUR NOTICE PRIOR** to our beginning work on your mainline sewer connection. The material used in this process gives off an odor. This odor is non-toxic and will dissipate. To minimize the odor entering your home or building, please pour one (1) gallon of water down all of your floor drains and sink drains. This will fill any floor traps that may have dried up, preventing the odor from entering through the sewer. For additional ventilation you can open a window to allow fresh air in.

*The process of re-lining the sewer will necessitate our temporarily closing your sewer connection, at the main, for a period of 6 to 12 hours. Should this closing go beyond this period, you will be notified. To minimize the possibility of backing up the sanitary sewer, please avoid using your water as much as possible. Normal usage of your facilities is permissible.*

*If possible, please do not park your vehicles in the street on this date to avoid blocking the manholes.*

**DISCONNECT** YOUR SUMP PUMP FOR THE DURATION.  
**MINIMIZE** SHOWER TIME & SINK USE, **DO NOT** RUN YOUR DISHWASHER, **And DO NOT** RUN YOUR WASHING MACHINE.

We will endeavor to minimize your inconvenience. Should you have any questions, concerns or require further information, please call our toll-free number at 1-800-981-8417.

**In case of an emergency, please contact James Russell (Erie County Dept. of Env. & Planning at 716-712-6398 or our supervisor Ed Loske at 440-829-9041 or Erie County Sewer 24 Hour Emergency at 716-823-8188**

**Our schedule is WEATHER PERMITTING. If inclement weather prevents our working on the date scheduled above, please note that we will re-line the next available day, again, weather permitting. You will be re-notified.**
