NEGATIVE DECLARATION
Determination of Non-Significance

Town of Lancaster Town Board

Dated: April 3, 2017

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act) of the Environmental Conservation Law.

The Town of Lancaster Town Board (the “Town Board”), has reviewed the proposed 2017 Local Law regulating Flag Lots which would amend Chapter 50, Zoning, Article VII, Regulations Applying to All Districts, Section 50-39, Lot division, by creating §50-39(A) “Flag Lots” to the Town Code. The Town Board has determined the Project will not have a significant adverse environmental impact and that a Draft Environmental Impact Statement will not be prepared.

Name of Action: Local Law Regulating Flag Lots

Location of Action: Town-wide applicability, Lancaster, New York 14086, Erie County.

SEQR Status: Type I Action.

Description of Action: A Local Law amending the Town of Lancaster Zoning Code to add a section regulating flag lots.

Reasons Supporting this Determination: Potential environmental impacts associated with the Project were identified in the Environmental Assessment Form. The Town analyzed the project under the criteria for determining significance identified in 6 NYCRR § 617.7(c)(1) and in accordance with 6 NYCRR § 617.7(c)(2) and (3). As indicated below based on each criterion specified in 6 NYCRR § 617.7(c)(1), the Project will not have a significant adverse impact on the environment.

1. **Impact on land** - The proposed local law does not permit new construction, but prohibits flag lots which have created significant community problems. For example, flag lots create impacts to adjacent property owners, create problems for emergency vehicles seeking to locate buildings located on the “flag” portion of the lot, and are not consistent with the comprehensive plan. The proposed local law will have a positive impact by addressing these issues. For flag lots currently in existence, their further development is regulated and standards have been developed to mitigate impacts.
2. **Impact on Geological Features – No impact**
3. **Impacts on Surface Water – No impact**
4. **Impact on Groundwater – No impact**
5. **Impact on Flooding – No impact**
6. **Impact on Air – No impact**

7. **Impact on Plants and Animals – No impact**
8. **Impact on Agricultural Resources – No impact**
9. **Impact on Aesthetic Resources – No impact**
10. **Impact on Historic and Archeological Resources – No impact**
11. **Impact on Open Space and Recreation – No impact**
12. **Impact on Critical Environmental Areas – N/A**
 - The Town of Lancaster has not established a Critical Environmental Area (CEA).
13. **Impact on Transportation – No impact**
14. **Impact on Energy – No impact**
15. **Impact on Noise, Odor and Light – No impact**
16. **Impact on Human Health – No impact**
17. **Consistency with Community Plans – No impact**
18. **Consistency with Community Character – No impact**
 - It is noted that this Local Law better defines how existing flag lots are developed.
 - As set forth above, the prohibition on the creation of “flag lots” and the regulation of exiting flag lots addresses current problems. The local law is consistent with the community character.

Pursuant to Article 16 of the New York Town Law and Section 10 of the Municipal Home Rule Law of the State of New York, the Town Board of the Town of Lancaster, County of Erie, New York does enact the following Local Law:

Be it hereby enacted by the Town Board of the Town of Lancaster as follows:

Section 1: Purpose and Intent

- A. To prevent the continuous subdivision of an original parcel of land into flag lots, thereby avoiding sound planning principles and the development of properly engineered transportation routes for access and emergency response.
- B. To prevent the creation of long narrow lots with the intent of further subdivision into flag lots.

Section 2.

- A. The Town of Lancaster Code is hereby amended to add Section 50-39A, Flag lots, which shall read in its entirety as follows:

§ 50-39. Lot division

A. Flag lots.

- 1. Definition: A lot shaped like a flag on a pole. The “flag” shaped area is the portion of a lot where all structures may be located. The “pole” shaped area is the portion of the lot by which vehicular access to the flag area from its adjoining road is located.
- 2. Prohibition on creation. No boundary line adjustment, lot line adjustment, subdivision approval, or any other approval shall be granted which has the effect of creating one or more flag lots.
- 3. Nonconforming flag lots. Flag lots in existence as of the effective date of this Local Law shall constitute nonconforming lots, provided the “pole” portion of the flag does not meet minimum frontage requirements for the district in which the lot is located.
- 4. Site plan review, pursuant to Section 50-43, is required prior to the issuance of any building permit on a flag lot. In addition to the standards set forth in Section 50-43, the Planning Board and the Town Board shall apply the following standards:

a) Buildable Area

- (1) The minimum area of the “flag” portion of the Flag Lot shall be 1.5 times greater than that required in the zone and shall constitute the buildable area. The area of the “pole” shall not be included in calculating the buildable area.
- (2) The minimum building setbacks shall be equal to the minimum setbacks of the zone measured within the buildable area.

b) Flagpole

- (1) The minimum width shall be 30 feet.

- (2) The flagpole shall not cross, or encroach into, a stream, stream bed, ravine, wetlands or similar topographic features without provision of an adequate structure approved by the Town Engineer or appropriate outside agencies.
- (3) The flagpole shall lie along a property line which is significantly perpendicular to the public street. In no instance will one flagpole be adjacent to another flagpole.
- (4) Parking of vehicles shall be prohibited in any portion of the flagpole.

c) Access driveway.

- (1) The access drive shall be contained within the flagpole.
- (2) The access drive shall have a minimum width of 12 feet. Driveways shall be set back at least five (5) feet from the adjacent property line(s).
- (3) The access drive shall be paved from the front yard setback of the zone to the edge of the pavement in the public right-of-way.
- (4) As a minimum, the remainder of the access drive shall be surfaced with stone to a minimum depth of six inches compacted over a firm subbase.
- (5) Prior to the issuance of a building permit, stone shall be placed from the public street for a distance of 50 feet for the purpose of preventing dirt tracking onto the public street.
- (6) Prior to the issuance of a certificate of occupancy, the access drive shall be constructed to the point necessary to provide access to the affected lot.
- (7) A visual buffer beginning at the front yard setback line from the public right of- way extending to the buildable portion of the flag lot shall be planted on the side of the access drive nearest the property line of the adjacent lot which was not the subject of the flag lot development. The planting shall consist of vegetative material capable of sustaining a visual barrier approved by the Town Forester.

d) Premises Identification

The address identification shall be legible and placed in a position that is visible from the street or road fronting the property.

e) Location of utilities.

Utilities must be located and approved on the Site Plan.

f) Drainage plan.

Grading and drainage systems are to discharge to a public storm system or appropriate storm water system approved by the Town Engineer.

Section 3: Severability. Should any provision of this Local Law be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of this Local Law as a whole or any part thereof other than the part so decided to be unconstitutional or invalid.
